

# 100% NATURAL ESSENTIAL OILS.

# 100% NATURAL ESSENTIAL OILS.

100% oils are mainly used in aromatherapy as one of the alternative medicines that support health and psychological well-being with the help of plant extracts. It is also called essential oil because the essence of the plant is preserved in liquid form, that is its true essence : the aroma.

They are made from fresh or dried parts of plants by pressing, boiling or distillation. They are suitable for aromatherapy, massages, baths or to add to cosmetics.

# THE MOST POPULAR ESSENTIAL OILS

## EUCALYPTUS

Eucalyptus oil belongs to the basic essential oils in aromatherapy. It is used for respiratory problems: asthma, flu, cough, cold, reduces fever, cleans the air, has a beneficial effect on migraines...

# LAVENDER

Lavender belongs to the oils with a wider range of uses. Calms nervous tension, depression, headaches, migraines and insomnia. It has healing effects for burns and it works as a repellent.

# MINT

Mint has stimulating effects, promotes concentration, refreshes, loosens mucus, heals, suppresses headaches and colds. Do not use in homeopathic treatments.

# BERGAMOT

Bergamot oil is an antiseptic oil that promotes digestion, strengthens the nerves, calms fever and is an antidepressant. It can also increase photosensitivity.
